Dear Sir or Madam,

I am a resident of your district. I am also a registered voter. I or a family member is a member of the New Jersey Fraternal Order of Police. I want you to know clearly where I stand on the issues facing New Jersey's Police Officers.

1. I believe law enforcement officers have a basic right to negotiate their terms and conditions of employment in a collective bargaining process that includes binding arbitration. Among those terms and conditions are Salary, Benefits, and the Health Care Costs to be paid by employees.

2. I believe that the crisis that exists within the pension system was created solely by the elected officials, who for their own political reasons, failed to meet their statutory obligation to fund the pension system as mandated by law, and that its failure to fund the pension system is a violation of the government's moral and legal requirements.

3. I will vote in the November General Election for candidates who share my views and will represent my concerns. I will encourage my friends and family to vote in support of those who will represent those views and to oppose those who would deny those rights to those who protect society.

The Fraternal Order of Police is the Voice of Our Nation's Law Enforcement Officers, representing more than 328,000 officers across America.
